

Late-night votes. Real-life consequences.

While most families in IL-15 were asleep, Congress passed a bill that will hit our communities hard, and Mary Miller voted yes.

Just after midnight, the House narrowly passed a \$9 billion spending cuts package. Here's what that means for folks across our district:

- **Seniors** will face higher energy bills without any relief.
- **Farmers and small towns** will lose essential broadband, health, and infrastructure investments.
- **Workers** will have fewer safety protections on the job.
- And all of us will be forced to breathe dirtier air, with weakened support for climate and public health efforts.

These aren't just numbers in a budget; they're lifelines for our communities. Mary Miller voted to cut them.

This is what happens when politicians put politics over people.

I'm running to do things differently. As a registered nurse, I've spent my life helping people, and I'll bring that same care and common sense to Congress.

But to win, we need to run a strategic and successful petition drive and continue to talk to voters across all 35 counties in IL-15 to ensure they know they have a real choice.

That's where you come in.

We don't need to outraise Mary, we need to fund our program, and you can help make that happen today by giving anything you can, even \$5 will make a difference.

Donate Here!

IL-15 deserves better. Everyone in IL-15. And we have the power to make it happen.

Thank you for being part of this with me. We can do this, together.

Jennifer Todd

Candidate for Congress, IL-15
